

*South Africa has a world for you  
— a place that will move  
you, a place that will  
speak to you, a place that  
may have been created to  
your specifications.*

# **SOUTH AFRICA**

**TRULY A LAND OF MANY WORLDS**

You may discover it in the crackling, champagne air of a winter's morning in the Karoo or perhaps it will steal up on you with the swirls of mist that wreath the russets and

golds of autumnal vines in the Boland.

Your imagination could be fired by the shimmering, scarlet orb of a dying sun on the

flaming horizons of the Transvaal or inspired by the jagged peaks of the Drakensberg etched against a pellucid sky.

Perhaps you would choose the golden fields of ripening corn undulating under scudding clouds in the endless vistas of the Free State.

Or would it be the honey coloured sands splintered by the thunderous crash of the Cape surf or even the untamed places of wilderness and wildlife?

You may find your place in the hypnotic pulse of the 'City of Gold' — Johannesburg — a crucible of cultures, people and ideas. Or would the gabled charm of historic Cape Town be for you?

**Of one thing you may be certain — your place is here — waiting for you.**
